### IN THE CIRCUIT COURT OF THE FIFTEENTH JUDICAL DISTRICT IN AND FOR PALM BEACH COUNTY, FLORIDA

SHALLENA SPILLMAN, an individual,

Plaintiff,

v. : Case No.

SUNBEAM PRODUCTS, INC., a foreign for-profit corporation authorized to do business and doing business within the State of Florida,

Defendant.

### **COMPLAINT**

Plaintiff, by and through her attorneys, **JOHNSON BECKER**, **PLLC**, upon information and belief, at all times hereinafter mentioned, alleges as follows:

### NATURE OF THE CASE

- 1. Defendant Sunbeam Products. Inc. (hereinafter generally referred to as "Defendant Sunbeam") designs, manufactures, markets, imports, distributes and sells a widerange of consumer products, including the subject "Crock-Pot Express Crock Multicooker," which specifically includes the Model Number SCCPPC 600-V1 (referred to hereafter as "Pressure Cooker(s)").
- 2. Defendant Sunbeam touts that its Pressure Cookers are designed with "safety in mind," which include supposed "safety measures" such as "safety sensors" that purport to keep the lid from being opened while the unit is under pressure.

<sup>2</sup> *Id*.

<sup>1</sup> 

- 3. Despite Defendant Sunbeam's claims of "safety," it designed, manufactured, marketed, imported, distributed and sold, both directly and through third-party retailers, a product that suffers from serious and dangerous defects. Said defects cause significant risk of bodily harm and injury to its consumers.
- 4. Specifically, said defects manifest themselves when, despite Defendant Sunbeam's statements, the lid of the Pressure Cooker is removable with built-up pressure, heat and steam still inside the unit. When the lid is removed under such circumstances, the pressure trapped within the unit causes the scalding hot contents to be projected from the unit and into the surrounding area, including onto the unsuspecting consumers, their families and other bystanders. The Plaintiff in this case was able to remove the lid while the Pressure Cooker retained pressure, causing her serious and substantial bodily injuries and damages including, but not limited to, 2<sup>nd</sup> degree burns to her chest, face, neck and upper extremities.
- 5. Moreover, on November 24, 2020, the Consumer Products Safety Commission ("CPSC") announced a recall of more than 900,000 of Defendant Sunbeam's SCCPPC600-V1 pressure cookers, which includes the subject pressure cooker, after receiving "119 reports of lid detachment, resulting in 99 burn injuries ranging in severity from first-degree to third-degree burns."
- 6. Defendant Sunbeam knew or should have known of these defects but has nevertheless put profit ahead of safety by continuing to sell its Pressure Cookers to consumers, failing to warn said consumers of the serious risks posed by the defects, and failing to recall the

<sup>&</sup>lt;sup>3</sup> *Id*.

<sup>&</sup>lt;sup>4</sup> See the CPSC Recall notice from November 24, 2020 (https://www.cpsc.gov/Recalls/2020/crock-pot-6-quart-express-crock-multi-cookers-recalled-by-sunbeam-products-due-to-burn#), a copy of which is attached hereto as Exhibit B.

dangerously defective Pressure Cookers regardless of the risk of significant injuries to Plaintiff and consumers like her.

- 7. Defendant Sunbeam ignored and/or concealed its knowledge of these defects in its Pressure Cookers from the Plaintiff in this case, as well as the public in general, in order to continue generating a profit from the sale of said Pressure Cookers, demonstrating a callous, reckless, willful, deprayed indifference to the health, safety and welfare of Plaintiff and consumers like her.
- 8. As a direct and proximate result of Defendant Sunbeam's conduct, the Plaintiff in this case incurred significant and painful bodily injuries, medical expenses, physical pain, mental anguish, and diminished enjoyment of life.

### PLAINTIFF SHALLENA SPILLMAN

- 9. Plaintiff Shallena Spillman is a resident and citizen of the city of Lebanon, County of Wilson, State of Tennessee. At the time of the incident, Plaintiff was a resident and citizen of the city of Detroit, County of Wayne, State of Michigan
- 10. On or about May 10, 2018, Plaintiff purchased a new Pressure Cooker, Model No. SCCPPC 600-V1.
- 11. On or about January 26, 2018, Plaintiff suffered serious and substantial burn injuries as the direct and proximate result of the Pressure Cooker's lid being able to be rotated and opened while the Pressure Cooker was still under pressure, during the normal, directed use of the Pressure Cooker, allowing its scalding hot contents to be forcefully ejected from the Pressure Cooker and onto Plaintiff. The incident occurred as a result of the failure of the Pressure Cooker's supposed "safety measures," which purport to keep the consumer safe while using the

Pressure Cooker. In addition, the incident occurred as the result of Defendant Sunbeam's failure to redesign the Pressure Cooker, despite the existence of economical, safer alternative designs.

### **DEFENDANT SUNBEAM PRODUCTS, INC.**

- 12. Defendant Sunbeam designs, manufacturers, markets, imports, distributes and sells a variety of consumer products<sup>5</sup> including pressure cookers, toasters, panini makers, and mixers, amongst others.
- 13. Defendant Sunbeam claims that through it's "cutting-edge innovation and intelligent design" it has been "simplifying the lives of everyday people" for "over 100 years".
- 14. Defendant Sunbeam is a Delaware Corporation with its registered place of business at 1293 North University Drive, #322 City of Coral Springs, Broward County, Florida 33071, and its principal place of business located at 2381 Executive Center Drive, Boca Raton, Florida 33431.

### **JURISDICTION AND VENUE**

- 15. This Court has personal jurisdiction over Defendant Sunbeam pursuant to Fla. Stat. § 48.193 in that Defendant Sunbeam operates, conducts, engages in, or carries on a business or business venture within this State, and/or committed a tortious act within this State.
- 16. Venue in this Court is pursuant to Fla. Stat. § 47.011 in that Defendant Sunbeam resides in Palm Beach County.
- 17. The amount in controversy exceeds the sum of fifteen thousand (\$25,000.00) dollars, exclusive of interest and costs.

<sup>&</sup>lt;sup>7</sup> *Id*.

<sup>&</sup>lt;sup>8</sup> *Id*.

### **FACTUAL BACKGROUND**

- 18. Defendant Sunbeam is engaged in the business of designing, manufacturing, warranting, marketing, importing, distributing and selling the Pressure Cookers at issue in this litigation.
- 19. Defendant Sunbeam aggressively warrants, markets, advertises and sells its Pressure Cookers as "an all-in-one appliance that's always ready when you are," allowing consumers to cook "instant, healthy, home-cooked dish in under an hour." 10
- 20. According to the Owner's Manual<sup>11</sup> accompanying each individual unit sold, the Pressure Cookers purport to be designed with "safety in mind and has various safety measures."<sup>12</sup>
- 21. For instances, the Defendant Sunbeam claims that it's pressure cookers include "safety sensors" to keep the lid from being opened while the unit is under pressure; that "[p]ressure will not build if the Lid is not shut correctly and has not sealed" and that "[o]nce the pressure increases, the Lid cannot be opened." 15
- 22. In addition to the "safety measures" listed in the manual, Defendant Sunbeam's Crock-Pot website claims that consumers can "cook with confidence" because the "airtight locking lid remains locked while pressure is inside the unit." <sup>16</sup>

<sup>&</sup>lt;sup>9</sup> See <a href="https://www.crock-pot.com/multi-cookers/express-crock/crock-pot-6-quart-express-crock-multi-cooker/SCCPPC600-V1.html">https://www.crock-pot.com/multi-cookers/express-crock/crock-pot-6-quart-express-crock-multi-cooker/SCCPPC600-V1.html</a> (last accessed December 11, 2020).

<sup>&</sup>lt;sup>10</sup> *Id*.

<sup>&</sup>lt;sup>11</sup>See Sunbeam Products, Inc. Crock-Pot Express Crock Multicooker Owner's Manual ("Exhibit A"), pg. 10.

<sup>&</sup>lt;sup>12</sup> *Id*.

 $<sup>^{13}</sup>$  *Id*.

<sup>&</sup>lt;sup>14</sup> *Id*.

<sup>&</sup>lt;sup>15</sup> *Id*.

<sup>&</sup>lt;sup>16</sup> See <a href="https://www.crock-pot.com/multi-cookers/express-crock/crock-pot-6-quart-express-crock-multi-cooker/SCCPPC600-V1.html">https://www.crock-pot.com/multi-cookers/express-crock/crock-pot-6-quart-express-crock-multi-cooker/SCCPPC600-V1.html</a> (last accessed December 11, 2020).

- 23. On November 24, 2020, the Consumer Products Safety Commission ("CPSC") announced a recall of more than 900,000 of Defendant Sunbeam's SCCPPC600-V1 pressure cookers, which includes the subject pressure cooker, after receiving "119 reports of lid detachment, resulting in 99 burn injuries ranging in severity from first-degree to third-degree burns."
- 24. By reason of the forgoing acts or omissions, the above-named Plaintiff and/or her family purchased their Pressure Cooker with the reasonable expectation that it was properly designed and manufactured, free from defects of any kind, and that it was safe for its intended, foreseeable use of cooking.
- 25. Plaintiff used her Pressure Cooker for its intended purpose of preparing meals for herself and/or family and did so in a manner that was reasonable and foreseeable by Defendant Sunbeam.
- 26. However, the aforementioned Pressure Cooker was defectively designed and manufactured by Defendant Sunbeam in that it failed to properly function as to prevent the lid from being removed with normal force while the unit remained pressurized, despite the appearance that all the pressure had been released, during the ordinary, foreseeable and proper use of cooking food with the product; placing the Plaintiff, her family, and similar consumers in danger while using the Pressure Cookers.
- 27. Defendant Sunbeam's Pressure Cookers possess defects that make them unreasonably dangerous for their intended use by consumers because the lid can be rotated and opened while the unit remains pressurized.

<sup>&</sup>lt;sup>17</sup> See Exhibit B.

- 28. Further, Defendant Sunbeam's representations about "safety" are not just misleading, they are flatly wrong, and put innocent consumers like Plaintiff directly in harm's way.
- 29. Economic, safer alternative designs were available that could have prevented the Pressure Cooker's lid from being rotated and opened while pressurized.
- 30. Defendant Sunbeam knew or should have known that its Pressure Cookers possessed defects that pose a serious safety risk to Plaintiff and the public. Nevertheless, Defendant Sunbeam continues to ignore and/or conceal its knowledge of the Pressure Cookers' defects from the general public and continues to generate a substantial profit from the sale of its Pressure Cookers, demonstrating a callous, reckless, willful, depraved indifference to the health, safety and welfare of Plaintiff and consumers like her.
- 31. As a direct and proximate result of Defendant Sunbeam's intentional concealment of such defects, its failure to warn consumers of such defects, its negligent misrepresentations, its failure to remove a product with such defects from the stream of commerce, and its negligent design of such products, Plaintiff used an unreasonably dangerous Pressure Cooker, which resulted in significant and painful bodily injuries upon Plaintiff's simple removal of the lid of the Pressure Cooker.
- 32. Consequently, the Plaintiff in this case seeks compensatory damages resulting from the use of Defendant Sunbeam's Pressure Cooker as described above, which has caused the Plaintiff to suffer from serious bodily injuries, medical expenses, physical pain, mental anguish, diminished enjoyment of life, and other damages.

### **CLAIMS FOR RELIEF**

### COUNT I STRICT LIABILITY

- 33. Plaintiff incorporates by reference each preceding and succeeding paragraph as though set forth fully at length herein.
- 34. At the time of Plaintiff's injuries, Defendant Sunbeam's Pressure Cookers were defective and unreasonably dangerous for use by foreseeable consumers, including Plaintiff.
- 35. Defendant Sunbeam's Pressure Cookers were in the same or substantially similar condition as when they left the possession of Defendant Sunbeam.
  - 36. Plaintiff did not misuse or materially alter the Pressure Cooker.
- 37. The Pressure Cookers did not perform as safely as an ordinary consumer would have expected them to perform when used in a reasonably foreseeable way.
- 38. Further, a reasonable person would conclude that the possibility and serious of harm outweighs the burden or cost of making the Pressure Cookers safe. Specifically:
  - a. The Pressure Cookers designed, manufactured, sold, and supplied by Defendant Sunbeam were defectively designed and placed into the stream of commerce in a defective and unreasonably dangerous condition for consumers;
  - b. The seriousness of the potential burn injuries resulting from the product drastically outweighs any benefit that could be derived from its normal, intended use:
  - c. Defendant Sunbeam failed to properly market, design, manufacture, distribute, supply, and sell the Pressure Cookers, despite having extensive knowledge that the aforementioned injuries could and did occur;
  - d. Defendant Sunbeam failed to warn and place adequate warnings and instructions on the Pressure Cookers;
  - e. Defendant Sunbeam failed to adequately test the Pressure Cookers; and

- f. Defendant Sunbeam failed to market an economically feasible alternative design, despite the existence of the aforementioned economical, safer alternatives, that could have prevented the Plaintiff' injuries and damages.
- 39. Defendant Sunbeam's actions and omissions were the direct and proximate cause of the Plaintiff's injuries and damages.
- 40. Defendant Sunbeam risked the safety and well-being of the consumers and users of its Pressure Cookers, including the Plaintiff to this action, with the knowledge of the safety and efficacy problems and suppressed this knowledge from the public. Defendant Sunbeam made conscious decisions not to redesign, warn or inform the unsuspecting consuming public.

WHEREFORE, Plaintiff demands judgment against Defendant Sunbeam for damages, together with interest, costs of suit, attorneys' fees, and all such other relief as the Court deems proper.

### COUNT II NEGLIGENCE

- 41. Plaintiff incorporates by reference each preceding and succeeding paragraph as though set forth fully at length herein.
- 42. Defendant Sunbeam has a duty of reasonable care to design, manufacture, market, and sell non-defective Pressure Cookers that are reasonably safe for their intended uses by consumers, such as Plaintiff and her family.
- 43. Defendant Sunbeam failed to exercise ordinary care in the manufacture, sale, warnings, quality assurance, quality control, distribution, advertising, promotion, sale and marketing of its Pressure Cookers in that Defendant Sunbeam knew or should have known that said Pressure Cookers created a high risk of unreasonable harm to the Plaintiff and consumers alike.

- 44. Defendant Sunbeam was negligent in the design, manufacture, advertising, warning, marketing and sale of its Pressure Cookers in that, among other things, it:
  - a. Failed to use due care in designing and manufacturing the Pressure Cookers to avoid the aforementioned risks to individuals;
  - b. Placed an unsafe product into the stream of commerce;
  - c. Aggressively over-promoted and marketed its Pressure Cookers through television, social media, and other advertising outlets; and
  - d. Were otherwise careless or negligent.
- 45. Despite the fact that Defendant Sunbeam knew or should have known that consumers were able to remove the lid while the Pressure Cookers were still pressurized, Defendant Sunbeam continued to market (and continues to do so) its Pressure Cookers to the general public.
- 46. Defendant Sunbeam risked the safety and well-being of the consumers and users of its Pressure Cookers, including the Plaintiff to this action, with the knowledge of the safety and efficacy problems and suppressed this knowledge from the public. Defendant Sunbeam made conscious decisions not to redesign, warn or inform the unsuspecting consuming public.

WHEREFORE, Plaintiff demands judgment against Defendant Sunbeam for damages, together with interest, costs of suit, attorneys' fees, and all such other relief as the Court deems proper.

### COUNT III STRICT LIABILITY - DESIGN DEFECT

- 47. Plaintiff incorporates by reference each preceding and succeeding paragraph as though set forth fully at length herein.
- 48. Defendant Sunbeam is the manufacturer, seller, distributor, marketer, and supplier of the subject Pressure Cookers, which were negligently designed.

- 49. Defendant Sunbeam failed to exercise reasonable care in designing, developing, manufacturing, inspecting, testing, packaging, selling, distributing, labeling, marketing, and promoting its Pressure Cookers, which were defective and presented an unreasonable risk of harm to consumers, such as the Plaintiff.
- 50. As a result, the subject Pressure Cookers, including Plaintiff's Pressure Cooker, contain defects in their design which render them unreasonably dangerous to consumers, such as the Plaintiff, when used as intended or as reasonably foreseeable to Defendant Sunbeam. The defect in the design allows consumers such as Plaintiff to open the lid while the unit remains pressurized, despite the appearance that all the pressure has been released from the unit, and causes an unreasonable increased risk of injury, including, but not limited to, first, second and third-degree scald burns.
- 51. Plaintiff in this case used her Pressure Cooker in a reasonably foreseeable manner and did so as substantially intended by Defendant Sunbeam.
- 52. The subject Pressure Cooker was not materially altered or modified after being manufactured by Defendant Sunbeam and before being used by Plaintiff.
- 53. The design defects allowing the lid to open while the unit was still pressurized directly rendered the Pressure Cookers defective and were the direct and proximate result of Defendant Sunbeam's negligence and failure to use reasonable care in designing, testing, manufacturing, and promoting the Pressure Cookers.
- 54. As a direct and proximate result of Defendant Sunbeam's negligent design of its Pressure Cookers, the Plaintiff in this case suffered injuries and damages described herein.
- 55. Despite the fact that Defendant Sunbeam knew or should have known that the Plaintiff and consumers like her were able to remove the lid while the Pressure Cookers were

still pressurized, Defendant Sunbeam continued to market its Pressure Cookers to the general public (and continues to do so).

56. Defendant Sunbeam risked the safety and well-being of the consumers and users of its Pressure Cookers, including the Plaintiff to this action, with the knowledge of the safety and efficacy problems and suppressed this knowledge from the public. Defendant Sunbeam made conscious decisions not to redesign, warn or inform the unsuspecting consuming public.

WHEREFORE, Plaintiff demands judgment against Defendant Sunbeam for damages, together with interest, costs of suit, attorneys' fees, and all such other relief as the Court deems proper.

### COUNT IV STRICT LIABILITY - FAILURE TO WARN

- 57. Plaintiff incorporates by reference each preceding and succeeding paragraph as though set forth fully herein.
- 58. At the time in which the Pressure Cooker was purchased, up through the time Plaintiff was injured, Defendant Sunbeam knew or had reason to know that its Pressure Cookers were dangerous and created an unreasonable risk of harm to consumers.
- 59. Defendant Sunbeam had a duty to exercise reasonable care to warn consumers of the dangerous conditions or the facts that made its Pressure Cookers likely to be dangerous.
- 60. As a direct and proximate result of Defendant Sunbeam's failure to warn of the dangers of its Pressure Cookers, the Plaintiff in this case suffered injuries and damages described herein.
- 61. Despite the fact that Defendant Sunbeam knew or should have known that consumers were able to remove the lid while the Pressure Cookers were still pressurized, Defendant Sunbeam continued to market its Pressure Cookers to the general public (and

continues to do so).

62. Defendant Sunbeam risked the safety and well-being of the consumers and users of its Pressure Cookers, including the Plaintiff to this action, with the knowledge of the safety and efficacy problems and suppressed this knowledge from the public. Defendant Sunbeam made conscious decisions not to redesign, warn or inform the unsuspecting consuming public.

WHEREFORE, Plaintiff demands judgment against Defendant Sunbeam for damages, together with interest, costs of suit, attorneys' fees, and all such other relief as the Court deems proper.

### **DEMAND FOR JURY TRIAL**

Plaintiff demands that all issues of fact of this case be tried to a properly impaneled jury to the extent permitted under the law.

### PRAYER FOR RELIEF

WHEREFORE, Plaintiff demands judgment against the Defendant Sunbeam for damages, including exemplary damages if applicable, to which they entitled by law, as well as all costs of this action, interest and attorneys' fees, to the full extent of the law, whether arising under the common law and/or statutory law, including:

- a. judgment for Plaintiff and against Defendant Sunbeam;
- b. damages to compensate Plaintiff for her injuries, economic losses and pain and suffering sustained as a result of the use of the Defendant Sunbeam's Pressure Cookers;
- c. pre and post judgment interest at the lawful rate;
- d. a trial by jury on all issues of the case;
- e. an award of attorneys' fees; and
- f. for any other relief as this Court may deem equitable and just, or that may be available under the law of another forum to the extent the law of another forum is

applied, including but not limited to all reliefs prayed for in this Complaint and in the foregoing Prayer for Relief.

Respectfully submitted,

## Owner's Guide

Read and Keep These Instructions

www.crockpot.com

# **MPORTANT SAFEGUARDS**

1

When using electrical appliances, basic safety precautions should always be followed to reduce the risk of fire, electric shock, and/or injury to persons including the following:

- 1. Read all instructions before using this product.
- 2. This appliance cooks under pressure when using pressure cooking functions. Improper use may result in scalding injury. Make certain unit is properly closed before operating. See Operating Instructions.
  - 3. This appliance generates heat during use. Do not touch hot surfaces. Use handles or knobs.
- 4. Do not fill the unit over maximum fill line at 2/3 full. When cooking foods that expand during cooking such as rice or dried vegetables, do not fill the unit beyond the recommended level at 1/2 full. Over filling may cause a risk of clogging the vent pipe and developing excess pressure. Follow all cooking and recipe instructions.

•

- 5. Always check the pressure release devices for clogging before use. Clean as necessary.
- Place the Multi-Cooker so that the Steam Release Valve is positioned away from the body.
  - Never place any part of the body, including face, hands, and arms over the Steam Release Valve. Steam can result in serious burns.
- 8. Do not operate the Multi-Cooker without food or liquid in the Cooking Pot.
- 9. To prevent risk of injury due to excessive pressure,

replace Lid Sealing Gasket only as recommended by the manufacturer. See Care and Cleaning instructions.

- instructions. 10. Do not use the Lid to carry the Multi-Cooker.
- 11. Do not move or cover the Multi-Cooker while it is in operation.
- 12. After pressure cooking, do not open the pressure cooker until the unit has cooled and all internal pressure has been released. If the Lid is difficult to remove, this indicates that the cooker is still pressurized do not force it open. Any pressure in the cooker can be hazardous. See Releasing Pressure Instructions.
- 13. Be careful when lifting and removing Lid after cooking. Always tilt the Lid away from you as steam is hot and can result in serious burns. Never place face over the Multi-Cooker.

•

- 14. Do not use this pressure cooker for pressure frying with oil.
- 15. To protect against electric shock, do not place or immerse cord, plugs, or appliance in water or other liquid.
  - 16. Do not use the Cooking Pot for food storage or place in the freezer.
- 17. To prevent damage to the Multi-Cooker do not use alkaline cleaning agents when cleaning. Use a soft cloth and a mild detergent.
  - 18. This appliance is **NOT** to be used by children or by persons with reduced physical, sensory, or mental capabilities.

1

20. Always plug Power Cord fully into Multi-Cooker first, then plug cord into the wall outlet.

21. Unplug from outlet when not in use, before putting on or taking off parts and before cleaning. Allow to cool before putting on or taking off parts, and before cleaning. To disconnect, ensure that the Multi-Cooker is OFF, then unplug Power Cord from outlet. Do not disconnect by pulling on cord.

22. Do not operate any appliance with a damaged cord or plug or after the appliance malfunctions, or has been damaged in any manner. Do not attempt to replace or splice a damaged cord. Return appliance to the manufacturer (see warranty) for examination, repair or adjustment.

•

23. Do not let Power Cord hang over edge of table or counter or come into contact with hot surfaces.

24. Extreme caution must be used when moving an appliance containing hot liquids.

 The use of accessory attachments not recommended by the appliance manufacturer may cause injuries. 26. Do not use outdoors or for commercial purposes.

27. Do not place on or near wet surfaces, or heat sources such as a hot gas or electric burner, or in a heated oven.

4-

28. Do not use appliance for other than intended use. Misuse can cause injuries. This appliance is not intended for deep frying foods.

29. **CAUTION:** To protect against electrical shock and product damage, do not cook directly in the Heating Base. Cook only in the removable Cooking Pot provided.

30. WARNING: Spilled food can cause serious burns. Keep appliance and cord away from children. Never drape cord over edge of counter, never use outlet below counter, and never use with an extension cord.

31. Do not plug in or turn on the Multi-Cooker without having the Cooking Pot inside the Multi-Cooker.

32. Intended for household countertop use only. Keep 6 inches (152 mm) clear from the wall and on all sides. Always use appliance on a dry, stable, level surface.

•

electric shock, this plug is intended to fit into a it still does not fit, contact a qualified electrician. Do not attempt to modify the plug in any way. If the plug fits loosely into the AC outlet or if the AC outlet feels warm do not use that outlet. This appliance has a polarized plug (one blade is wider than the other). To reduce the risk of polarized outlet only one way. If the plug does not fit fully into the outlet, reverse the plug. If

## POWER CORD INSTRUCTIONS:

A short Power Cord is used to reduce the risk resulting from it being grabbed by children, becoming entangled in, or tripping over a longer cord.

### **NOTICES:**

- Some countertop and table surfaces are not designed to withstand the prolonged heat generated by certain appliances. Do not set the heated Multi-Cooker on a finished wood table. We recommend placing a hot pad or trivet under your Multi-Cooker to prevent possible damage to the surface.
  - During initial use of this appliance, some slight smoke and/or odor may be detected. This is normal with many heating appliances and will not recur after a few uses.  $\sim$ i
- Please use caution when placing your Cooking Pot on a ceramic or smooth glass cook top stove, countertop, table or other surface. It may scratch some surfaces if caution is not used. Always place heat resistant protective padding under the Cooking Pot before setting on a table, countertop or other surface. ς:

# <u>How to use your express crock multi-cooker</u>

### **Getting started:**

**CROCK-POT® EXPRESS CROCK MULTI-COOKER COMPONENTS** 

**CONTROL PANEL** 

**(4)** 

Remove all packaging, paper, and cardboard (including any located between the Cooking Pot and Heating Base). Read and save the literature and be sure to read the service

and warranty information. Visit the Crock-Pot® website at www.crockpot.com for additional information, hints, tips and recipes or call 1-800-323-9519.

### Assembly:

- Place Cooking Pot into the Heating Base Place Lid upon Multi-Cooker and align ▼ with ■. To lock, twist counterclockwise, aligning ▼ with ■. To unlock, twist Lid clockwise and align ▼ with ■.

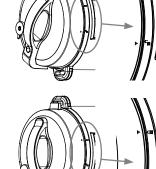

Open Lid

**Unlocked Lid** 

Locked Lid

Time Selection Buttons

**(**

**(** 

**(4)** 

Remove the Lid by turning clockwise to unlock, aligning with a. Remove the Sealing Gasket from the Lid and wash the gasket and the Lid in warm soapy water. Dry the Sealing Gasket and Lid thoroughly before reattaching the Sealing Gasket to the Lid. Ensure the Sealing Gasket is smoothly and securely in place in the gasket holder. If the Sealing Gasket is not in the correct position the Lid will not be able to form a seal and will not be able to gain pressure.

EETTI

2. Remove the Cooking Pot and the Condensation Collector and wash in warm, soapy water. Dry thoroughly before replacing back in the Multi-Cooker.

The Express Crock Multi-Cooker has been designed with safety in mind and has various safety measures.

- Pressure will not build if the Lid is not shut correctly and has not sealed.
  - Ensure Lid is in the completely locked position and the ▼ is aligned with ♠.

**(** 

- Pressure will not build if the Steam Release Valve has not been switched to the Seal "\( \mathbb{R}'' \) position.
   Over filling may cause a risk of clogging the vent pipe and
  - developing excess pressure.

    5. The gasket and the valves can be removed for cleaning.
- (See page 32).

  6. Once the pressure increases, the Lid cannot be opened.
  Safety sensors ensure the pressure remains within the set range.
- The Steam Release Valve has an extended finger tab, designed to keep the hand away from the top of the valve. Always use a kitchen utensil when operating this tab. See RELEASING PRESSURE Instructions on page 18.
- 7. The pressure cooking functions require liquid to work. If the inside of the Cooking Pot does not have enough liquid, an error will appear in the Display Screen. See ERROR CODES

# **GETTING TO KNOW YOUR EXPRESS CROCK (CONT.)**

art on page 36.

- 8. At the end of cooking, the Lid cannot be unlocked until all the pressure is released. This can be done using the Natural Pressure Release Method or Quick Pressure Release Method, explained on page 18.
  - 9. The Time Selection Buttons (+ and -) are used to set the cooking time. To advance slowly, simply press the + or button and release. To advance quickly, press and hold the + or button. If you have passed the desired time, simply press the opposite arrow button to return to the desired

**NOTE:** The timer can be selected for all programs and can be changed at any time during cooking by pressing **START/STOP** and selecting a new function.

10. The **PRESSURE ADJUST**10. The cooking pressure (HIGH or LOW). Each pre-set cooking setting automatically selects the optimum pressure for that selection, but it can be manually selected with this button (see the Cooking Guide on page 22 for available adjustments).

•

- The TEMP ADJUST button is used to select desired
  temperature (HIGH or LOW). The temperature may only be
  adjusted on the SLOW COOK, YOGURT, and BROWN/
  SAUTÉ functions (see the Cooking Guide on page 22 for
  available adjustments).
  - 12. The **START/STOP** button starts and stops a cooking function. It must be pressed to change from one cooking function to another after cooking has begun.
- 13. The Display Screen shows how much longer the food needs to cook from the selected time in hours and minutes once the Multi-Cooker is preheated. While the Multi-Cooker is preheated screen will show, "HEAt".

Ť

**(4)** 

will count up to 4:00 (4 hours) or until you press the

setting, the Multi-Cooker will turn off. To end a cooking function at any time, press the <u>.</u>

Add desired ingredients to Cooking Pot. Place Lid on top of Multi-Cooker and align ▼ with ■. To lock, twist counterclockwise, aligning ▼ with ■. Plug provided Power Cord into the Power Cord Port of

(NOTE: The Multi-Cooker beeps as each button is

pressed.

**GETTING STARTED** 

11. When finished, unplug the Multi-Cooker and wait for it to cool completely before attempting to clean.

ingredient level line marked MAX on the inside of the Cooking CAUTION: Never load the Cooking Pot above the maximum

**Note:** The Multi-Cooker cannot pressure cook without liquid. Ensure a minimum of 8oz of liquid is used inside the removable Foods that expand during cooking (e.g. rice) should never go above the 1/2 mark.

**(** 

-15-

PRESSURE COOKII

**(4)** 

Pressure cooking is an ideal way to create quick, flavorful meals. Pressure cooking is a method of cooking food in liquid (water, stock, wine, etc.) in a sealed Cooking Pot. The sealed Multi-Cooker retains steam and builds pressure, raising the temperature of the liquid inside the pot above boiling point. The increased temperature of the liquid and the steam results in reduced cooking times.

HIGH Pressure Setting is 6.5 - 10 PSI (45 - 70 kPa). It is suitable for a wide range of foods.

LOW Pressure Setting is 3.3 - 6.5 PSI (23 - 45 kPa). It is more suited to delicate foods like chicken fillet, fish and some vegetables.

**KEEP WARM** Setting: When cooking time is completed, the Multi-Cooker automatically switches to the **KEEP WARM** setting to prevent overcooking and to keep your cooked food warm until serving - perfect for busy families, those on the run and those who need flexible meal times. This setting is not hot enough to cook and should only be used to keep warm, cooked food for serving.

**(** 

Ideal Meals to Pressure Cook: Soups, stocks, casseroles, sauces (e.g. pasta sauces), meat, rice, firm vegetables (beetroot, potatoes) and desserts (e.g., pudding).

Capacity: Never fill the Cooking Pot above the MAX line. Foods that expand during cooking should never go above the 1/2 mark. The Multi-Cooker cannot pressure cook without liquid. Ensure a minimum of 8oz of liquid is used inside the removable Cooking Pot.

## USING THE PRESSURE COOKING FUNCTIONS

Place the Multi-Cooker on a flat, level surface. Place Cooking Pot inside Heating Base. Plug the Multi-Cooker into a wall outlet. The Multi-Cooker will beep, and the Display Screen will illuminate with four dashes (---).

Place your food and liquid inside the removable Cooking

Pot.
2. Place the Lid onto the Multi-Cooker and align ▼ with ■ To lock, rotate counterclockwise to the **LOCKED** ■ position.

Using the finger tab, rotate the Steam Release Valve to the "Seal" position.

Select the desired cooking function

Adjust the cooking time and pressure if necessary.

Note: See the Cooking Guide on page 22 to find the possible time and pressure adjustments

Once you have made the desired adjustments, if any, press START/STOP.

7. The Multi-Cooker needs to gain pressure before pressure cooking can begin. When the Multi-Cooker is gaining pressure, "HEAt" will appear on the Display Screen and the time will not count down. The amount of time the Multi-Cooker takes to gain pressure varies according to humidity and water temperature, but average pressurization time is 13-15 minutes. When pressure has been reached, "HEAt" will disappear on the Display Screen, and the time will begin to count down.

8. After the set cooking time has elapsed, the Multi-Cooker will beep and will automatically switch to the **KEEP**WARM setting. The Display Screen will therefore change from the cook time to a new timer that will count up to 4:00 (4 hours) or until you press the **START/STOP** button. After 4 hours in the **KEEP WARM** setting, the Multi-Cooker will go into stand-by mode, and the Display Screen will illuminate with four dashes (---).

**(** 

**USING THE PRESSURE COOKER FUNCTIONS (CONT.)** 

**(4)** 

- 1. The pressure cooking settings are in the Cooking Guide table
- Screen. Ensure that the Sealing Gasket is placed evenly in the lid. See the ERROR CODES chart on page 36. is not in the "Seal" position, the Multi-Cooker cannot gain pressure and an ERROR message will appear in the Display If the Jid is not shut correctly or if the Steam Release Valve
  - It is common for some steam to release through the Bobber Valve during the cooking cycle. This is part of normal operation of the unit.

Ensure a minimum of 8oz of liquid is used inside the removable Note: The Multi-Cooker cannot pressure cook without liquid. Cooking Pot.

**CAUTION:** During cooking, steam will build up in the Multi-Cooker, so when lifting the Lid use a kitchen glove or mitt to protect your hand.

**(** 

# RELEASING PRESSURE AT THE END OF COOKING

Natural Pressure Release Method: After cooking cycle completed, and then, using a kitchen utensil, flick the tab on the Steam Release Valve to the "Release" position (see over the steam outlet on top of the valve, as steam is very when steam is no longer escaping from the valve and the Lid opens freely with minimal force. Only then is it safe to is complete, let Multi-Cooker naturally release pressure through the Bobber Valve. Unit will gradually cool down hot and can scald skin. The pressure has been released on its own. Wait at least 10 minutes after cooking has Figure 4). Do not place any part of your hand or body remove the Lid and serve food

# <u>releasing pressure at the end of cooking (cont</u>

such as casseroles, stocks and soups. Never use this method when cooking rice, as rice tends to be very no longer escaping from the valve and the Lid opens freely with minimal force. Only then is it safe to remove the Lid "Release" setting (see Figure 4). Steam will release rapidly from the Steam Release Valve. Do not place any part of use this method when cooking liquid ingredients delicate. The pressure has been released when steam is the valve, as steam is very hot and can scald skin. Never your hand or body over the steam outlet on the top of utensil, flick the tab on the Steam Release Valve to the Quick Pressure Release Method: Using a kitchen and serve food. Θ.

### CAUTION:

- Do not force the Lid to open. If it does not open easily this means that the Multi-Cooker is still under pressure.
- During cooking, steam will build up in the Multi-Cooker, so when lifting the Lid use a kitchen glove or mitt to protect your hand.

•

cooking process, some pressure can build inside the unit

during cooking. This is why it's important to keep the Steam Release Valve in the "Release" position.

Note: Although this setting will not use pressure in the

"Release" position.

Press the **SLOW COOK** button and adjust the time and

Note: See the Cooking Guide on page 22 to find the

temperature as needed.

4.

possible time and temperature adjustments.

HIGH Setting: This is for faster cooking. Recommended cooking times in HIGH are from 2 to 4 hours.

**KEEP WARM** Setting: When cooking time is completed, the Multi-Cooker automatically switches to the **KEEP WARM** setting to prevent overcooking and to keep your cooked food warm until serving - perfect for busy families, those on the run and those who need flexible meal times. This setting is not hot enough to cook and should only be used to keep hot, cooked food warm for serving.

**Note:** When slow cooking, the ideal fill level for your ingredients is between the 1/2 and 2/3 marks. Never fill the Cooking Pot above the MAX line.

•

## **USING THE SLOW COOK FUNCTION**

The **SLOW COOK** function does not use pressure in the cooking process, but some pressure can build inside the unit during cooking. When using this function, ensure the Steam Release Valve is in the "Release" position. This function will cook similarly to standard slow cookers, using lower temperatures and longer cooking times to achieve tender, flavorful meals. Place the Multi-Cooker on a flat, level surface.

Place Cooking Pot inside Heating Base. Plug the Multi-Cooker into a wall outlet. The Multi-Cooker will beep, and the Display Screen will illuminate with four dashes (- - - -).

- Place your food and liquid inside the removable Cooking Pot.
- Place the Lid onto the Multi-Cooker and align ▼ with ■. To lock, rotate counterclockwise to the **LOCKED** position.

**(**

### STEAMING

The STEAM function is perfect for gently steaming fish and vegetables. It is pre-programmed to use the HIGH pressure cooking setting. When steaming, use the Steaming Rack... <u>Capacity:</u> When the Multi-Cooker is used with the **STEAM** under the rack wires, so that the liquid is not touching the function, the maximum capacity of liquid should be just food.

Note: The unit cannot pressure cook without liquid. Ensure a minimum of 8oz of liquid is used inside the removable Cooking Pot.

## **USING THE STEAM FUNCTION**

Place Cooking Pot inside Heating Base. Plug the Multi-Cooker into a wall outlet. The Multi-Cooker will beep, and the Display Screen will illuminate with four dashes Place the Multi-Cooker on a flat, level surface.

Cooking Pot and insert the cooking rack. Ensure water is just under the wires of the rack so that food is not i. Add 8oz of water to the bottom of the removable touching water.

- Place your food on the cooking rack.
  Place the Lid on and lock by rotating counterclockwise to the **LOCKED** position. 3 %
  - Using the finger tab, flick the Steam Release Valve to the "Seal" position.

-25-

-23-

## USING THE STEAM FUNCTION (CONT.)

**(4)** 

Press the STEAM button and adjust the time and pressure as needed.

Note: See the Cooking Guide on page 22 to find the possible time and pressure adjustments.

Once you have made the desired adjustments, if any, press **START/STOP**. ٠.

The Multi-Cooker needs to gain pressure before pressure cooking can begin. When the Multi-Cooker is gaining pressure, "HEAt" will appear on the Display Screen and the time will not count down. When pressure has been reached, "HEAt" will disappear on the Display Screen, and the time will begin to count down. 7

will beep and will automatically switch to the **KEEP WARM** setting. The Display Screen will therefore change After the set cooking time has elapsed, the Multi-Cooker button. After 4 hours in the KEEP WARM setting, the to 4:00 (4 hours) or until you press the START/STOP from the cook time to a new timer that will count up Multi-Cooker will turn off. ∞:

•

**CAUTION:** During cooking, steam will build up in the Multi-Cooker, so when lifting the Lid use a kitchen glove or mitt to **TIP:** See the Steaming Chart on page 25. protect your hand.

### STEAMING CHARI

Broccoli	1 bunch	2 cups	2-inch florets	2 - 3 minutes
Baby carrots or 1 ½ inch pieces	1 lb	2 cups	Peeled and trimmed	2 - 3 minutes
Cauliflower	1 medium head	2 cups	2-inch pieces	2 - 3 minutes
Corn on the cob	4	2 cups	6-inches	3 - 5 minutes
Green beans	1 lb	2 cups	Whole/trimmed	2 - 3 minutes
Snow peas	1 lb	2 cups	Whole/trimmed	1 - 3 minutes
Small new Potatoes	વા ા	2 cups	Whole	x minutes
White or Yukon Gold potatoes	12 ounces	2 cups	Quartered	7 - 9 minutes
Sweet Potatoes	12 ounces	2 cups	Cut in 1 ½-inch pieces	7 - 9 minutes
Yellow squash or zucchini	વા ા	2 cups	Thickly sliced	6 - 8 minutes
Poultry				
Eggs	8	2 cups	Whole in shell	6 - 9 minutes
Fish				
Lobster tails	Large	2 cups	In shell	3 - 4 minutes
Large Shrimp	1 lb	2 cups	Peeled and deveined	1 - 3 minutes
Salmon	વા ા	2 cups	Cut in serving size pieces	3 - 5 minutes

-22-

### <del>(\*)</del>

## **USING THE BROWN/SAUTÉ FUNCTION**

This setting does not cook under pressure. It works similarly to standard cooking, requiring dry heat, and therefore does not need the Lid. Do not use the Lid with this function. Place the Multi-Cooker on a flat, level surface. Place Cooking Pot inside Heating Base. Plug the Multi-Cooker into a wall outlet. The Multi-Cooker will beep, and the Display Screen will illuminate with four dashes

- Select the **BROWN/SAUTÉ** function and adjust the time and temperature if necessary, using the + and buttons.
  - Press START/STOP.
- When the Multi-Cooker is pre-heating, "HEAt" will appear on the Display Screen. When the temperature has been reached, the timer will start counting down. Using plastic tongs, carefully add your food to the hot

BROWN/SAUTÉ can be used for each of the following:

•

- A. Brown (sear) meats for casseroles and soups. Browning meat prior to pressure cooking and slow cooking not only gives your food great color, but it also seals in the juices and flavors and keeps the meat tender.
- B. Sauté onions or mirepoix (mixture of chopped onion, carrot, and celery), among many other foods, often used in pressure cooker and slow cooker recipes. Sautéing onions allows caramelization which contributes to flavor and color in the end dish.

Capacity: When the Multi-Cooker is used to brown or sauté it may be best to cook in batches to ensure the food is evenly cooked.

### RICE COOKING

When cooking rice, use the **RICE/RISOTTO** function. This is suitable for all types of rice, including white and/or brown

The RICE/RISOTTO function cooks under pressure for faster

cooking.

Capacity: Since rice expands during cooking, do not fill Cooking Pot above the 1/2 mark when using the **RICE/RISOTTO** function.

## **USING THE RICE/RISOTTO FUNCTION**

Place the Multi-Cooker on a flat, level surface.

Place Cooking Pot inside Heating Base. Plug the Multi-Cooker into a wall outlet. The Multi-Cooker will beep, and the Display Screen will illuminate with four dashes (- - - -).

- Measure the desired quantity of rice.
- Note: 1 cup uncooked white rice = 2 cups of cooked white rice (approximately). 1 cup uncooked brown rice = 2 cups cooked brown rice = 2 cups

**(** 

- 2. Place the measured rice in a strainer and wash rice thoroughly under cold water. Wash until the water runs clear. This removes excess starch which helps to achieve fluffier rice, and prevents rice grains sticking to the Cooking Pot. Rinsing the rice reduces the build-up of starchy water and bubbles that sometimes form around the Valve Cover and Lid, which can cause spitting from the Steam Release
- 3. Ensure the Cooking Pot is clean and dry before placing it
- inside the Heating Base.

  4. Place the washed rice in the Cooking Pot. Add the quantity of water needed for your recipe (Standard ratio -- 1 cup of uncooked rice: 1.5 cups of water). Ensure that a minimum of 8oz of liquid is placed inside the removable Cooking Pot.

-56-

-27-

## SING THE RICE/RISOTTO FUNCTION (CONT.)

- Place the Lid on and lock by rotating counterclockwise to the **LOCKED** position.
  - 6. Using the finger tab, flick the Steam Release Valve to the "Seal" position.
- Press the **RICE/RISOTTO** button and adjust the time and pressure as needed.
  - **Note:** See the Cooking Guide on page 22 to find the possible time and pressure adjustments.
- 8. Once you have made the desired adjustments, if any, press START/STOP.
  - 9. The Multi-Cooker needs to gain pressure before pressure cooking can begin. When the Multi-Cooker is gaining pressure, "HEAt" will appear on the Display Screen and the time will not count down. When pressure has been reached, "HEAt" will disappear on the Display Screen, and the time will begin to count down.

•

10. After the set cooking time as elapsed, the Multi-Cooker will beep and will automatically switch to the **KEEP WARM** setting. The Display Screen will therefore change from the cook time to a new timer that will count up to 4:00 (4 hours) or until you press the **START/STOP** button. After 4 hours in the **KEEP WARM** setting, the Multi-Cooker will turn off.

### TIPS:

- 1. Do not keep rice in the pot for extended periods of time on the **KEEP WARM** setting, as the rice will become dry and the quality will deteriorate. Use the supplied plastic spoon to stir and serve the rice. Do not use metal utensils, as these will scratch the non-stick coating.
  - As rice grains can be delicate, at the end of cooking wait until the pressure releases naturally. Do not use the Quick Pressure Release Method (see page 18 for instructions on the Natural Pressure Release Method).

## USING THE RICE/RISOTTO FUNCTION (CONT.)

- Standard ratio for cooking rice -- 1 cup of uncooked rice: 1.5 cups of water
  - **CAUTION:** During cooking, steam will build up in the Multi-Cooker, so when lifting the Lid use a kitchen glove or mitt to protect your hand.

### **TO CHANGE A SETTING**

It's easy to switch functions during cooking.

Press the **START/STOP** button and then select the new desired cooking function. A new timer will flash on the Display Screen, and the selected function will also flash. Select the desired time, pressure, and/or temperature. Press the **START/STOP** button and the new function will begin preheating.

## To Change the Cooking Time:

**(** 

You can change the cooking time before cooking begins by pressing the + and - buttons before pressing **START/STOP**. Press and release to change slowly. Press and hold to change time quickly. If you pass the desired temperature or time, press the opposite button.

## To Change the Pressure:

You can change the pressure on certain pre-set functions before cooking begins by pressing the **PRESSURE ADJUST** button before pressing **START/STOP**.

## To Change the Temperature:

You can change the temperature on certain functions before cooking begins by pressing the **TEMP ADJUST** button before pressing **START/STOP**.

-59-

### •

**CARE AND CLEANING** 

**(4)** 

Cleaning should only be carried out when the the Express Crock is cool and unplugged. Allow the Multi-Cooker to completely cool before cleaning. Do not use the removable Cooking Pot on the stovetop, inside a microwave oven or inside an oven. Use the pot only inside the Express Crock Heating Base. Wash the Sealing Gasket and Lid by hand in warm, soapy water. Dry all parts thoroughly.

### **Cooking Pot:**

When removing the Cooking Pot from the Heating Base, always use two hands and lift directly upward. Failure to do so may result in scratching the outside of the Cooking Pot (see figure 5).

•

### Figure 5

## **CARE AND CLEANING (CONT.)**

If food sticks or burns to the surface of the Cooking Pot, then fill it with hot soapy water and let it soak before cleaning. Use a rubber or nylon spatula to remove stubborn residue. If scouring is necessary, use a non-abrasive cleaner and a nylon scouring pad or brush.

Although the Cooking Pot is dishwasher safe, we recommend hand-washing to preserve the non-stick coating.

If white spots form on surface of Cooking Pot, then soak it in a solution of vinegar or lemon juice and warm water for 30 minutes. Rinse and dry.

**Note:** Never use metal utensils or cleaning devices on the Cooking Pot, as this may result in scratching and damaging the non-stick coating.

### Exterior

Wipe the exterior of the Heating Base with a damp cloth and polish dry. DO NOT use harsh abrasives, scourers or chemicals, as these will damage the surfaces. To prevent damage to the Multi-Cooker do not use alkaline cleaning agents when cleaning. Only use a soft cloth and mild detergent. Never immerse the heating base in water or any other liquid.

## **Condensation Collector**

Empty any collected water from the Condensation Collector after each use. Wash in warm, soapy water.

ဗ္ဂ

### •

## **CARE AND CLEANING (CONT.)**

### Lid and Sealing Gasket

Always examine the gasket before each use. The silicon Sealing Gasket on the inside of your Multi-Cooker Lid may deteriorate over time. Remove Sealing Gasket for cleaning as needed. Hand clean using warm, soapy water, dry thoroughly, and replace Sealing Gasket in Lid before use. Leave the Lid upturned for storage, as this will also extend the life of the gasket. Sealing Gasket may need to be replaced every 1 – 2 years depending on regular use. Contact Crock-Pot® customer service to order replacement parts.

### **Steam Release Valve**

Ensure the Steam Release Valve is clear from debris before you begin using the Multi-Cooker. Remove the valve and gently clean. Ensure it is completely dry before replacing.

## **Steam Release Valve Cover**

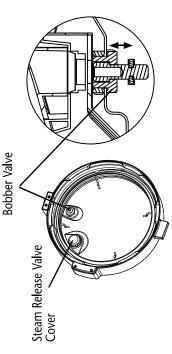

**(** 

The Steam Release Valve Cover is on the underside of the Lid. Ensure it is clear from debris before you begin using the Multi-Cooker. To clean, carefully pull the cover off and clean using warm, soapy water. Press the cover back into its place after cleaning is complete.

## **CARE AND CLEANING (CONT.)**

UNDERSIDE OF LID

**(4)** 

### Figure 6

### **Bobber Valve**

Gently press the valve up and down 2-3 times and ensure it is clear from debris before you begin using the Multi-Cooker. **Lid Lock Pin** 

Gently press the pin and ensure it is clear from debris before

## you begin using the Multi-Cooker. **Note:**

- 1. Condensation may collect inside the Heating Base under the removable Cooking Pot. This is normal. Allow to cool, and then dry using kitchen cloth.
  - Always make sure that each component (pot, valves, gasket, etc.) is completely dry before you put back into the Multi-Cooker.

### **TROUBLESHOOTING**

		_		Ď.	Seal"			quid e.	s full	ure,	ally e be
Solution	Make sure outlet is functioning properly	Check that the Multi-Cooker is plugged in	Call Customer Service at 1-800-323-9519	Make sure you selected the proper cooking setting	Make sure the Lid is properly placed and locked, and that Steam Release Valve in "Seal" (closed) position.	Check the recipe to see that the proper pressure, temperature, and time selection were made	Be sure the power was not interrupted	Make sure the Cooking Pot has enough liquid to create desired steam and build pressure. Minimum of 8oz of liquid should be used when pressure cooking. Never fill over the "MAX" line.	Make sure the Cooking Pot was at least ½ full	Check that the proper pressure, temperature, and time were selected	Because sautéing is a function that generally requires your full attention this may not be necessary. However, if desired a time can be selected.
Question	My Multi-Cooker will not turn on			My food was undercooked					My food was overcooked		Can I set a time for the Brown/Sauté program?
Subject	Power			Doneness of food							Programming

## TROUBLESHOOTING (CONT.)

**(** 

Subject	Question	Solution
	Can I change the cooking function, time or temperature once the food is cooking?	Yes, to change the cooking function, press <b>START/STOP</b> and select a new cooking function. Change the time and temperature as required for the food. Press <b>START/STOP</b> again. The time and temperature can be changed at any time.
Cooking	Can the Cooking Pot and Lid be used on top of the stove or in the oven?	The Cooking Pot and Lid are not oven safe. Neither can be used on the stove or in the oven.
	I stopped the cooking process and changed pressure settings, and now the Multi-Cooker is preheating again.	If a cooking cycle is stopped and a new one is started, the Multi-Cooker may display "HEAt" until the new pressure is achieved.
Steam	Steam is leaking out of the Multi-Cooker	• It is normal for a small amount of steam to come out of the Bobber Valve before the Multi-Cooker is pressurized. • If steam is coming out from the perimeter of the Lid, the Lid has not been closed and locked completely.
Lid	I am having trouble removing the Lid.	There is a safety feature to keep Lid from being removed while the Multi-Cooker is under pressure. Please make sure to depressurize the unit by rotating the Steam Release Valve into the "Release" (open) position. Refer to Releasing Pressure section for further instructions.

### EXHIBIT B CPSC Recall Notice from November 24, 2020

### Crock-Pot 6-Quart Express Crock Multi-Cookers Recalled by Sunbeam Products Due to Burn Hazard

Ensure lid is in fully locked position by aligning the arrow on the lid with the lock symbol on the base.

### **Recall Summary**

### Name of product:

Crock-Pot® 6-Quart Express Crock Multi-Cookers

### Hazard:

The recalled Crock-Pot multi-cooker can pressurize when the lid is not fully locked. This can cause the lid to suddenly detach while the product is in use, posing burn risks to consumers from hot food and liquids ejected from the product.

### Remedy:

### Replace

### Recall date:

November 24, 2020

### **Units:**

About 914,430 (In addition, about 28,330 were sold in Canada.)

**Consumer Contact:** 

Crock-Pot at 800-323-9519 from 9 a.m. to 5 p.m. ET Monday through Friday or online at recall.crock-pot.com/ for more information.

Re	call Details	
ln	Conjunction	With:

### **Description:**

This recall involves Crock-Pot 6-Quart Express Crock Multi-Cookers, Model Number SCCPPC600-V1, which is shown on label on bottom of unit. The multi-cookers were manufactured between July 1, 2017 and October 1, 2018, with date codes K196JN through K365JN and L001JN through L273JN. The date code is engraved on one of the prongs of the electrical plug and on the bottom of the base.

### Remedy:

Consumers should immediately stop using the recalled Crock-Pot in pressure cooker mode, but may continue to use for slow cooking and sautéing. Consumers should contact Crock-Pot immediately to obtain a free replacement lid.

Consumers who continue using the multi-cooker in pressure cooker mode while waiting for the replacement lid should be certain the lid is securely turned to the fully locked position by aligning the arrow on the lid with the lock symbol on the base.

### Incidents/Injuries:

Sunbeam Products has received 119 reports of lid detachment, resulting in 99 burn injuries ranging in severity from first-degree to third-degree burns.

### **Sold At:**

Walmart, Target and other retail stores nationwide and online at Amazon and other online retailers from July 2017 through November 2020 for between \$70 to \$100.

### Manufacturer(s):

Sunbeam Products, Inc., of Boca Raton, Fla.

### Manufactured In:

China

**Recall number:** 

21-035
